

INVITATION TO OUR IN-HOUSE EXHIBITION

Hosokawa AlpineExpo2015

System Suppliers and Users of Process Technology in Dialogue on 17 and 18 June 2015 in Augsburg

Our in-house exhibition offers you a wide range of information about technologies and processes used for the manufacture and processing of fine powders and bulk materials. Numerous exhibits from leading manufacturers will be shown in the exhibition area. Presentations given by the experts from research, industry and by the equipment manufacturers highlight the state of the art and point out the future trends. Systems will be demonstrated in our huge application testing centre. Experienced process engineers will be available for one-on-one discussions.

During your visit to the AlpineExpo2015, you can select the programme points that are of interest to you and shape the content of your discussions with the experts to suit your requirements.

The main exhibition themes are:

Wednesday, 17.06.:

Presentations on topics involving applications specific to the chemicals industry as well as to the field of industrial base materials (minerals, metallic compounds, ceramics)

Thursday, 18.06.:

Presentations on topics involving applications specific to the sectors of foodstuffs and animal feed as well as to the chemicals industry.

The main themes of the presentations are:

- » Energy-efficient processes and system concepts
- » Increasing product quality and yields
- » In-line measurement of process and product parameters for intelligent process management
- » Flexible production: small batches and product change

The presentations will be held in English. More details on the papers themselves will be available in April 2015.

Opening times:

Exhibition: 9 a.m. to 5 p.m.
Wrap-up: 4.30 p.m. to 6.30 p.m.

Admission to our in-house exhibition including all presentations is free of charge. However, advance registration using the appended registration form is mandatory.

Please find more information about AlpineExpo2015 at:
HOSOKAWA ALPINE Aktiengesellschaft | ZVF Department
Peter-Doerfler-Str. 13-25, 86199 Augsburg, Germany
Tel. +49 821 5906 - 383 | Fax: +49 821 5906 - 261
E-Mail: expo@alpine.hosokawa.com

This invitation is directed at the users of process-technological systems, at research facilities and at the designers of such systems. We trust that the manufacturers and suppliers of machines and components will understand that the AlpineExpo2015 is not directed at them.

Hosokawa AlpineExpo2015

System Suppliers and Users of Process Technology in Dialogue

Leading manufacturers of process-technological machines and components will be at the AlpineExpo2015:

HOSOKAWA ALPINE Aktiengesellschaft supplies machines and systems for the comminution and classification of powders using dry or wet processes to a target fineness of a few μm down to the nano scale. The range includes briquette presses and systems to increase the powder density using compaction and granulation.

HOSOKAWA MICRON POWDERS GmbH: Powder processing on behalf of the customer: micronisation, mixing, compacting, sieving.

HOSOKAWA MICRON LTD: Complete engineering solutions from the design concept to the final commissioned powder processing plant from the pioneers of containment technology and specialists in remote equipment monitoring services.

Hosokawa Micron B.V. is specialized in mixing, drying & agglomeration. We design, engineer & supply equipment and systems for the mechanical and thermal processing of dry and wet powders.

GEA Westfalia Separator Group is a company of GEA Group Aktiengesellschaft, which is a leading systems provider worldwide for food processing and process industries.

Allgaier Process Technology GmbH produces and delivers washing, drying, cooling, screening and sorting systems for the international bulk solids processing industry.

HAYER & BOECKER OHG: Machinery Division: Single machines, systems and processing plants for the filling and processing of bulk materials of all types.

HAYER & BOECKER OHG, Particle Analysis: Systems for sieve analysis, sampling and photo-optical particle size and shape analysis of particles from 10 micron.

Atlas Copco offers compressed air and gas compressors, expanders, vacuum technology, equipment for air and gas treatment, as well as air management systems and services for industrial applications.

MikroPul GmbH: Our delivery range includes the engineering and supply of separators and systems for dust recovery from gases by means of dry and wet techniques to particle diameters below 1 μm .

The **AZO Group:** Automatic feeding systems for storing, discharging, screening, conveying, dosing, weighing and mixing with the very latest process IT in the foodstuffs, pharmaceuticals, chemicals and plastics sectors.

Endress+Hauser is a leading supplier of measuring instruments and automation solutions for the industrial process engineering industry, provides sensors, instruments, systems and services for level, flow, pressure and temperature measurement as well as liquid analysis and data acquisition.

Mogensen GmbH & Co. KG produces and delivers high-performance screening machines for the bulk solids processing industry as well as optoelectronic and X-ray based sorting systems for maximum quality requirements and performances for grain sizes between 1 and 300 mm.

Getting to Augsburg

Munich Airport is ideal for international visitors. We will be glad to help organise a transfer from the airport to Augsburg.

From Frankfurt, for example, you can take the direct train to Augsburg. The journey takes about 3 hours.

Accommodation in Augsburg

Augsburg has numerous hotels: please use the link www.augsburg-tourismus.de or one of the many hotel booking portals in Internet or contact your travel agency.

Registration for the AlpineExpo2015

Admission to our in-house exhibition including all presentations is free of charge. However, advance registration is mandatory: kindly use the appended registration form.

... AND TO ROUND OFF: A VISIT TO NEUSCHWANSTEIN CASTLE

In order to round off the week, we would like to offer our guests at the AlpineExpo2015 the opportunity of visiting one of the touristic highlights of our region: Neuschwanstein Castle about 100 km south of Augsburg.

This day trip will take place on Friday **19.06.2015**.

The trip starts at around 9 a.m. with a coach trip from Augsburg, includes a guided tour of the castle as well as lunch together, and finishes at about 7 p.m. back in Augsburg. Participation is free of charge, but we do need your registration by 15th May 2015 at the latest.
